

CRAFT BOOTH REGULATIONS CHECKLIST

[The Craft Business Guide](#)

Thank you for downloading the inspiri-art-and-craft.com Craft Booth Regulations Checklist.

This checklist was designed to help you keep track of regulations for booth set up and design at specific craft shows that you will attend and to ensure your own booth meets those rules.

You will find the checklist on page 2 of this document.

Use one checklist to track the booth regulations for each each craft show you attend.

You can print up as many copies of the checklist as you need based on the number of shows you are attending. For example, if you are attending five craft shows, you will need to print five copies of the checklist; one for each show.

THE SECTIONS OF THE CHECKLIST

1. The first column of the checklist describes the type of regulation.
2. The second column provides a place where you can note (with a check mark, or yes or no) whether your booth conforms to the show's rule.
3. The third column provides space for you to note specific details about the show's rules for each type of regulation.
4. The last row of the checklist labeled "Other" provides a place to make note of any other rules that are not covered on the checklist.
